Project: TIS	Incident Number/Reference: 025

DESCRIPTION *(data and sequence of actions leading to fault, details of actual and expected response)*

The INFORMED Design S.P1229.50.2 some errors in the interface described for Floppy.

In Floppy, the Poll operation is not required but an Init operation will be required since the software will need to establish the drive letter of the Removable drive. Also CheckWrite needs to be a procedure since opening files to compare them is considered to modify the file. The Check also removes all temporary files used in the check.

Found in test: N/A

EVALUATION *(include list of items affected, details of work required, other similar faults, tests to be re-run)*

Within the INFORMED design, Floppy Interface

Remove the operation Floppy.Poll.
Make the operation Floppy.CheckWrite a procedure.
Add the operation Floppy.Init.
