Project: TIS		Incident Number/Reference: 046	
DESCRIPTION (data and sequence of actions leading to fault, details of actual and expected response)			
If the system starts-up with files from a previous run in the Temp directory, which are read-only then it is possible that attempts to copy data from floppy will fail.			
Found in test: UpdateConfig3

EVALUATION (include list of items affected, details of work required, other similar faults, tests to be re-run)			
In the code floppy.adb always use the same filename for the temporary "currentFile". Use the name current.txt. During initialisation delete files current.txt and written.log if these exist - this will remove the described problem.
