

ABSTRACT

There are japanese-translated materials of "Ada Basic Concept" (6 courses) and "Ada Programming in the large" (5 courses). The total number of courses is eleven.

We provide them in both the ppt format and the pdf format (c.f. (a)). The materials of "Ada Programming in the large" have the 'note' part, so we created the pdf file with 'note' option.

(a) files

'ppt' directory includes the files in power point format and 'pdf' directory is for PDF format, which were produced from the powerpoint file.

The naming rule of file is:

'J_' + <original filename>

└─ pdf

- | └─ Ada\ Basic\ Concept
 - | | └─ J_Arrays.pdf
 - | | └─ J_Basic_Types.pdf
 - | | └─ J_Packages.pdf
 - | | └─ J_Records.pdf
 - | | └─ J_Statements.pdf
 - | | └─ J_Subprograms.pdf
- | └─ Ada\ Programming\ in\ the\ Large
 - | | └─ J_Access_Types.pdf
 - | | └─ J_Encapsulation.pdf
 - | | └─ J_Exceptions.pdf
 - | | └─ J_Genericity.pdf
 - | | └─ J_Strong_Typing.pdf

└─ ppt

- | └─ Ada\ Basic\ Concept
 - | | └─ J_Arrays.ppt
 - | | └─ J_Basic_Types.ppt
 - | | └─ J_Packages.ppt
 - | | └─ J_Records.ppt
 - | | └─ J_Statements.ppt
 - | | └─ J_Subprograms.ppt
- | └─ Ada\ Programming\ in\ the\ Large
 - | | └─ J_Access_Types.ppt
 - | | └─ J_Encapsulation.ppt
 - | | └─ J_Exceptions.ppt

```
|      └─ J_Genericity.ppt
|      └─ J_Strong_Typing.ppt
└─ readme.txt
```

(b) fonts

I used the 'HGMaruGothicMPRO' fonts that is standard font in Japan and provided by Microsoft on installing the powerpoint software. And it is embedded in the PDF file.
